## STORE

Residence at house formerly occupied by Marshall Robinson.

OFFICE HOURS:—9 to 11 A. M. to 3 P. mhl

## IS HE A CANDIDATE?

## A Talk with Judge Lang, of Empire.

Noticing an item in the Index that Judge Lang, of Empire, was a candidate for Judge of the Supreme Court of the United States, the APPEAL reporter hired a four-in-hand and went down. He found Judge Lang sitting on a barrel in his Court, trying a case of Budweiser, which had just been sent down from Livingston's saloon.

"Is there any truth in the report that you aspire to the Supreme Bench of the U. S.?"

"I have heard something of it," said the Judge, "but I have made no efforts in my own behalf."

"Hands of your friends?"

"No, not as bad as that. If a man wants to win in politics he'd better keep out of the hands of his friends. Last Fall I got in the hands of my friends, and blamed if I'm quite out yet. When you get to be my age you'll play light on the friendly interest people take in your political success. Look at that Democratic Convention that the Mugwumps captured; and I had most all the proxies gathered in the night before. But I've quit politics, for a man who is mentioned for the Supreme Bench can't afford to drag his judicial carmine in the mud. I'd be pretty solid on marine law, for I've run the jurisprudence of this seaport for years. Well, I won't say I'm a candidate, but if the Supreme Bench wants me they know my address."

## PACIFIC COAST ITEMS.

—San Diego has now six daily papers.

—The towns neighboring to the recent gold find in San Luis are almost depopulated.

—It took a Merced jury just five minutes to find Charles Carr guilty of assisting a prisoner to break jail.

—Immense petrified bones have been found near Paso Robles. They are supposed to be those of a mastodon.

—Fresno is to vote on the 15th of June upon the question of issuing \$50,000 worth of bonds for public improvements.

—There is a struggle between the gas and electric-light companies at San Jose over the right to light the city.

—The strenuous effort is being made by the Southern Pacific to parallel the Atchison, Topeka and Santa Fe Road from Santa Ana through to San Juan Capistrano and on to San Diego, Cal.

—Photographers are at work in the Willamette Valley, Or., preparing material with which to illustrate that section in pamphlets, now being prepared for the purpose of inducing immigration.

—The ostrich farm on Coronado Beach, San Diego, opened on Wednesday, with a pair of African breeders and their progeny, making sixteen birds. The farm is located within three blocks of the ocean.

—Richard Cockerill drank cyanide of potassium at the Dakota Mill, near Bannock, M. T., on Tuesday, thinking it was water. He died soon afterward. The deceased was an old-time California and Colorado miner.

—Jerry Barton killed Edward Swift at Tombstone, A. T., Monday. Swift is said to be the seventh man Barton has killed. The victim is sixty years old and leaves several children in California. There is intense excitement at Tombstone, and it is probable lynching will be resorted to.

## Public Spirited.

The proprietors of the Haywood mine in Storey county sent \$15,000 in bullion to the Carson Mint to be refined. They could have saved \$15 by sending the bullion to Shelby & Co. San Francisco, but the Report quotes them with saying that "a corporation which will not contribute \$15 out of \$15,000 to help the State, is run on a ten-cent basis and its members are not good citizens."

The APPEAL regrets to say that there are other corporations on the Comstock not so public spirited.

## Meeting.

The Amateur Base Ball Club will hold a meeting at their club rooms on Saturday evening the 21st inst. All members are requested to be present. GEO. COWING, W. C. Noteware, President. Sec'y.

## ALL SORTS.

—There was another shower yesterday with a prospect of a good rousing rain.

—David Bertran a miner was almost instantly killed in the Cholla Shaft, on Wednesday evening.

—Eugene Thompson the Elko County defaulter has been sentenced to two years and six months in the Penitentiary.

—FOR SALE.—A large roomy residence in the Western part of the city. Fine location. Apply at this office.

—It now turns out that Mrs. Thorne of this city, who was represented by certain newspapers as having "mysteriously disappeared," was merely in Virginia City visiting friends.

—M. F. Flannagan convicted of murder in the second degree for brutally shooting his sister in Gold Hill, was sentenced yesterday to hard labor in the State Prison for eighteen years.

—The Examiner sent out a representative to meet and interview Bernhardt before her arrival at the city. The reporter met the angelic Sara at the Humboldt House, in Humboldt county, and accompanied her to San Francisco.

—The San Francisco banks refuse to take silver. We regret that we are not in debt to some San Francisco bank to the amount of \$10,000 or so, for in case we were we should go down there and compel them to take every dollar of it in white money. We would give them a pointer on the silver question.—Silver State.

—Kilrain has challenged Sullivan to a bare knuckle fight to the finish for the championship of the world. Sullivan replies as usual, that he will fight six rounds for two thirds the gate receipts. He hasn't as yet covered Kilrain's deposit of \$1,000 on the \$5,000 stake. This looks if John L. were in no real hurry for business.

—It is said that there are three or four small herds of Mountain sheep in the Gillis Mountain mining district in this State. One or two patriarchs of the flocks are said to have tremendous heads and horns. The miners do not worry them, and consider them more ornamental than useful, and any day would rather have good square tame beef, than this wild sheep meat.

—The volume of business in San Francisco as indicated by the returns of the Clearing House for several months past, has shown a marked increase over the same period of last year. The exchanges of the banks last week were \$5,078,400 in excess of those of the corresponding week in 1886. While much of the increase has been due to the activity of grain speculation, it is plain to be seen that a revival in general business has been and still is in progress.

—The water troubles have been settled in Tulare county. Two hundred determined farmers have lifted the headgates and the Valley is being irrigated as the water comes down through hundred of farms, that is, this water is being utilized instead of being allowed to run to waste in the Pacific Ocean, as the Supreme Court would have it. No one is being deprived of a drop of water by the act and a million dollars worth of property has been saved. The people of California are applauding the farmers but the Supreme Court says that "the opening of the headgates as entirely illegal and utterly reprehensible."

## St. Elmo's Fire.

The story which stage-driver Emery brought from the Lake about the electric fires on the Meteor was at first thought to indicate that a new brand of whiskey had been introduced at Glenbrook. Parties who were on the boat corroborate the statement that there were several balls of fire on the boat resting on the top of pointed objects. This is an electrical phenomenon known as St. Elmo's fire, but it is a very rare thing in any climate.

## The Toronto Affair.

The City of Toronto does not seem a very healthy place for a public speaker. When O'Brien the Irish patriot spoke there the other day about 20,000 people got around the stand and every time O'Brien rounded one of his periods, somebody got knocked galley West and the air was lousy with brick bats.

O'Brien was mobbed on Wednesday by the Orangemen, and more trouble is expected.

## A New Method of Account Keeping.

The retail grocers of the East are adopting a new way of keeping accounts with customers. A small book of coupons ranging from one cent to a dollar is furnished to the customer and is charged to him. When he orders goods he tears out coupons to the value of the order in the presence of the grocer or his clerk, and then destroys them.

When a \$5 or a \$10 book of coupons is reduced to the covers, it is good evidence that goods to the value it represented have been purchased. It amounts to the same thing as paying spot cash for every order, but the customers have the privilege of paying for the coupon book when it is used up. There are quite a good many advantages to be mentioned in favor of this system, and it will probably supersede in a great measure the old style of keeping accounts.—Silver State.

## The Great Monopoly.

TOLEDO, O. May 19.—A plan is on foot at Lima, it is declared to organize an oil exchange to oppose the Standard Company. The plans have not yet been perfected, but many of the leading men in the Lima oil fields are interested. All are angry at the last cut of oil and the lowering of the price to 27½ cts. The leaders claim that under the Inter State Commerce law they could obtain equal rates with the Standard, and that they could compete with the Standard in the sale of oil in the large cities of the North and West. They claim that oil is worth a dollar a barrel for fuel and that the Standard has cleared \$20,000,000 on oil already purchased in the Ohio fields. All the producers will be made stockholders in the exchange and if necessary pipe lines will be built and a refinery erected probably at Toledo.

## A Terrible Crime.

ROSEBURG, Or., May 17.—Mrs. Rosa Bruckham, living six miles South of this city, was found dead early this morning on the banks of the Umpqua river, a few hundred yards from the residence of her father, Stephen Leinbeck. Her throat was cut from ear to ear and she had deep wounds on her wrists. The affair is mysterious. The parents try to create the impression that she committed suicide, but circumstances point to the fact that she was murdered in a barn near the house and the body carried to the river. The affair has created great excitement in the neighborhood. There is a well-founded report that the woman's condition would have revealed to her husband, who was about to return from the mines, that she had been unfaithful. The theory is that the murder is on account of incest.

## Died in His Chair.

PIOCHE, May 18.—Charles F. Meyers, Treasurer of Lincoln county, was found dead reclining in a chair in his office this morning at 9 o'clock. Apparently, he died while asleep, of rheumatism of the heart six or eight hours before he was found. He had been expecting death, though walking about the streets, but would allow no one to remain with him at night. He was a member of the Nevada Assembly in 1885, and was Postmaster of Pioche in the bonanza days. Meyers was a pioneer, known throughout the Coast. All his accounts are square.

## Knows Him.

One of the typos employed in the Nevada (Cal.) Herald office is well acquainted with Frank McKee, the sick printer that Miss Frankie Brown of Oakland married with the expectation that he would die soon and leave her a widow. He says McKee is a dissipated fellow, whenever he had money to dissipate on, and that if his wife had given him plenty of money to spend, and not given it to other parties to hand to him, she would have been a full fledged widow long before this. What a mistake.

## The Indian School.

Yesterday the plans for the Indian School arrived from Washington. The building will be over 200 feet long, and cost from twelve to fifteen thousand dollars.

Such an institution will be of great benefit to Carson City, and with the money appropriated by the general Government, can be easily run with no expense to this county after the original cost of building.

—Wizard Oil at Geo. Thaxter's.

# Can it be Possible?

## We Say Yes!

If You Don't Believe it, Come and Convince Yourself.

—WE HAVE—  
**450 SPRING AND SUMMER SUITS.**
